India, Vedaraniyam, 3/66, mainroad, kodiyaikkadu.

## Professional summary

As a highly motivated and detail-oriented Computer Science student, I have gained valuable experience through my coursework and internships. My passion for technology and problem-solving has led me to excel in coding languages such as Java, Python, and SQL. I have also honed my skills in data analysis and machine learning through various projects. My biggest achievement was developing a mobile application that received recognition at a regional tech competition. My strong work ethic, adaptability, and effective communication skills make me an asset to any team. I am excited to continue expanding my knowledge and contribute to the ever-evolving field of computer science.
